“At its heart depolarization work is not about finding agreement, but about humanizing those with whom we disagree, including our enemies.”

Ephesians 2:11-22

So then, you are no longer strangers and aliens, but you are fellow **citizens with the saints** and also members of the household of God, built upon the foundation of the apostles and prophets, with Christ Jesus himself as the cornerstone; in him the whole structure is joined together and grows into a holy temple in the Lord, in whom you are built together spiritually as a dwelling place for God.

What is an algorithm? Examples

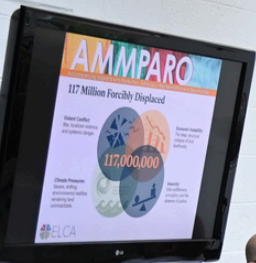

- **definition:** a set of repeatable steps that are followed in order to solve a problem or complete a process (dictionary)
- **In every day:** a cooking recipe!
 - a replicable set of steps for a specific goal → blueberry muffins!
- **In math:** A procedure with a finite number of steps that frequently involves repetition of an operation (<https://www.youtube.com/watch?v=311111111111>) to solve a mathematical problem (ex: finding the greatest common divisor)
- **In computer we all use:** each search engine has its own proprietary statistical computation (called an "algorithm") that ranks websites for each keyword or combination of keywords.
