

A photograph of two construction workers in safety gear (hard hats and high-visibility vests) working on a roof. They are focused on installing solar panels. The worker on the left wears an orange hard hat and a green long-sleeved shirt with an orange safety vest. The worker on the right wears a yellow hard hat and a green long-sleeved shirt with an orange safety vest. They are using tools to secure the panels. The background shows a blurred cityscape and trees under a bright sky.

Support Community Energy to Expand Access For All Pennsylvanians

Dear Senator,

I am writing as your constituent and a Christian whose faith calls me to care for God's Creation. I urge you to support House Bill 504, which expands access to renewable energy sources.

Currently, outdated regulations prevent many individuals from accessing renewable energy options off-site. By advancing this bipartisan bill, you will help ensure that more people can participate in the renewable energy economy and enjoy its numerous benefits, including lower electricity bills, increased reliability, protection from power outages, and reduced pollution.

I strongly urge you to support HB 504. Your support will make a significant difference in expanding access to clean energy for all Pennsylvanians.

Sincerely,

Street Address and Zip Code
